POWERED BY
MYOTREND™

MYOPRE™ has been manufactured in a facility that is FDA inspected, operates under strict compliance with "cGMP" guidelines and is certified by globally recognized Informed-Sport. The latter, is a quality assurance program certifying that every batch of products bearing the Informed-Sport logo, has been tested for a variety of banned substances in its world class anti-doping testing facility. As a consumer, you can cross-reference this products batch # on the <http://www.informed-sport.com/website> as an added layer of assurance.

SUGGESTED USE:

Adults should begin use by mixing a one half (1/2) scoop with 8 to 14 ounces of water or juice approximately 15 to 20 minutes prior to training. Mix one (1) scoop with 14 to 20 ounces of water or juice in order to achieve the preferred dilution level and taste. Shake vigorously. A single dose may be too strong and require that tolerance be established prior to increasing to the full and recommended serving of one (1) scoop. Consume during the workout. Do not exceed recommended dose. Use only as directed.

MANUFACTURED IN A
FDA INSPECTED FACILITY

Once open, consume within 20 to 30 days and avoid exposure to moisture as it may cause clumping and/or hardness.

ALLERGEN WARNING: Produced on shared equipment that also produces products that may contain EGG, FISH, MILK, PEANUT, SHELLFISH, SOY, TREE NUTS, and WHEAT.

WARNINGS: Product should not be used by persons under the age of 18. DO NOT USE IF PREGNANT OR NURSING. Consult your health care adviser prior to using this or any other dietary supplement or if use is in conjunction with prescribed or OTC medication or if you have any known or suspect having a medical condition. In the event that you experience any adverse reaction, stop use immediately and contact a physician. Discontinue use 2 weeks prior to surgery. Store in a COOL DRY PLACE. KEEP OUT OF REACH OF CHILDREN. **CAFFEINE WARNING:** A single dose of MYOPRE™ has 300 mg of caffeine the approximate equivalent of 3.5 / 6-ounce cups of coffee and should be avoided by individuals who wish to eliminate caffeine from their diet. Too much caffeine can cause irritability, nervousness, sleeplessness, and sometimes a rapid heartbeat.
